
SPIDER RESOURCES INC.

(A development stage company)

Interim Financial Statements

(Unaudited)

(Expressed in Canadian Dollars)

Three and nine months ended September 30, 2009

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited interim financial statements of Spider Resources Inc. (A Development Stage Company) were prepared by management in accordance with Canadian generally accepted accounting principles. The most significant of these accounting principles have been set out in the December 31, 2008 audited financial statements. Only changes in accounting policies have been disclosed in these unaudited interim financial statements. Management acknowledges responsibility for the preparation and presentation of the unaudited interim financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances.

Management has established processes, which are in place to provide them sufficient knowledge to support management representations that they have exercised reasonable diligence that (i) the unaudited interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the unaudited interim financial statements and (ii) the unaudited interim financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the unaudited interim financial statements.

The Board of Directors is responsible for reviewing and approving the unaudited interim financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited interim financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

NOTICE TO READER

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these unaudited interim financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

Spider Resources Inc.
(A Development Stage Company)
Notes to Interim Financial Statements
(Unaudited)
Three and nine months ended September 30, 2009

1. NATURE OF OPERATIONS AND GOING CONCERN

Spider Resources Inc. (the "Company" or "Spider") is an exploration enterprise and carries on business in one segment, being the exploration for valuable minerals, exclusively in Canada. To date, the Company has not earned significant revenues from its exploration rights and is considered to be in the development stage. As such, the Company has applied Accounting Guideline 11 "Enterprises in the Development Stage" from January 1, 1995, which is the date of inception of the development stage.

The recoverability of amounts shown as mining interests is dependent upon a number of factors including environmental risk, legal and political risk, the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying properties, the ability of the Company to obtain necessary financing to complete the development and future profitable production or proceeds from the disposition thereof.

The unaudited interim financial statements are prepared using Canadian generally accepted accounting principles ("GAAP") that are applicable to a going concern which assumes the Company will continue to operate throughout the next twelve months subsequent to September 30, 2009. The use of these principles may be inappropriate since there is significant doubt regarding the appropriateness of this assumption. Significant doubt exists because there has been substantial operating losses in the current and prior years and the Company has no operating assets. The future of the Company is currently dependent upon its ability to obtain sufficient cash from external financing, and/or related parties to fund the Company's ongoing operations and expenditures on its properties.

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

The unaudited interim financial statements have been prepared in accordance with Canadian GAAP for interim financial information. Accordingly, they do not include all of the information and notes to the financial statements required by Canadian GAAP for annual financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2009 may not necessarily be indicative of the results that may be expected for the year ending December 31, 2009.

The unaudited balance sheet at December 31, 2008 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by Canadian GAAP for annual financial statements. The interim financial statements have been prepared by management in accordance with the accounting policies described in the Company's annual audited financial statements for the year ended December 31, 2008, except as noted below. For further information, refer to the audited financial statements and notes thereto for the year ended December 31, 2008.

Goodwill and Intangible Assets

Effective January 1, 2009, the Company adopted Section 3064 – Goodwill and Intangible Assets which replaced the Canadian Institute of Chartered Accountants ("CICA") Handbook sections 3062 and 3450, EIC-27 and part of Accounting Guideline 11. Under previous Canadian standards, more items were recognized as assets than under International Financial Reporting Standards ("IFRS"). The objectives of CICA 3064 are to reinforce the principle based approach to the recognition of assets only in accordance with the definition of an asset and the criteria for asset recognition and to clarify the application of the concept of matching revenues and expenses such that the current practice of recognizing asset items that do not meet the definition and recognition criteria is eliminated. The portions in the new standard with respect to Goodwill remain unchanged. The provisions relating to the definition and initial recognition of intangible assets intends to reduce the differences with IFRS in the accounting for intangible assets. The new standard also provides guidance for the recognition of internally developed intangible assets (including research and development activities), ensuring consistent treatment of all intangible assets. The adoption of this standard had no impact on the Company's presentation of its financial position or results of operations as at September 30, 2009.

Spider Resources Inc.
(A Development Stage Company)
Notes to Interim Financial Statements
(Unaudited)

Three and nine months ended September 30, 2009

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES (continued)

Credit Risk and the Fair Value of Financial Assets and Financial Liabilities

In January 2009, the CICA approved EIC-173 "Credit Risk and the Fair Value of Financial Assets and Financial Liabilities". This guidance clarified that an entity's own credit risk and the credit risk of the counterparty should be taken into account in determining the fair value of financial assets and financial liabilities including derivative instruments. This guidance is applicable to fiscal periods ending on or after January 20, 2009. The Company is continually evaluating its counterparties and their credit risks.

Mining exploration costs

On March 27, 2009, the Emerging Issues Committee of the CICA approved an abstract EIC-174 Mining Exploration Costs, which provides guidance on capitalization of exploration costs related to mining properties in particular, and on impairment of long-lived assets in general. The Company has applied this new abstract for the three and nine months ended September 30, 2009 and there was no significant impact on its unaudited interim financial statements as a result of applying this abstract.

Future accounting changes

IFRS

In January 2006, the CICA's Accounting Standards Board ("AcSB") formally adopted the strategy of replacing Canadian generally accepted accounting principles with IFRS for Canadian enterprises with public accountability. The current conversion timetable calls for financial reporting under IFRS for accounting periods commencing on or after January 1, 2011. On February 13, 2008 the AcSB confirmed that the use of IFRS will be required in 2011 for publicly accountable profit-oriented enterprises. For these entities, IFRS will be required for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The Company is currently assessing the impact of IFRS on its financial statements.

Business Combinations, Consolidated Financial Statements and Non-Controlling Interests

The CICA issued three new accounting standards in January 2009: Section 1582, "Business Combinations", Section 1601, "Consolidated Financial Statements" and Section 1602, "Non-Controlling interests". These new standards will be effective for fiscal years beginning on or after January 1, 2011. Section 1582 replaces section 1581 and establishes standards for the accounting for a business combination. It provides the Canadian equivalent to IFRS 3 - Business Combinations. Sections 1601 and 1602 together replace section 1600, Consolidated Financial Statements. Section 1601 establishes standards for the preparation of consolidated financial statements. Section 1602 establishes standards for accounting for a non-controlling interest in a subsidiary in consolidated financial statements subsequent to a business combination. It is equivalent to the corresponding provisions of IFRS IAS 27 - Consolidated and Separate Financial Statements. The Company is in the process of evaluating the requirements of the new standards.

3. CAPITAL MANAGEMENT

The Company defines capital that it manages as its shareholders equity. When managing capital, the Company's objective is to ensure the entity continues as a going concern as well as to achieve optimal returns to shareholders and benefits for other stakeholders. Management adjusts the capital structure as necessary in order to support the acquisition, exploration and development of its mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management team to sustain the future development of the business. As at September 30, 2009, total shareholders' equity (managed capital) was \$20,407,338 (December 31, 2008 - \$19,413,635).

Spider Resources Inc.
(A Development Stage Company)
Notes to Interim Financial Statements
(Unaudited)
Three and nine months ended September 30, 2009

3. CAPITAL MANAGEMENT (continued)

The properties in which the Company currently has an interest is in the exploration stage. As such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration program and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts when economic conditions permit it to do so.

Management has chosen to mitigate the risk and uncertainty associated with raising additional capital within current economic conditions by:

- (i) maintaining a liquidity cushion in order to address any potential disruptions or industry downturns;
- (ii) minimizing discretionary disbursements;
- (iii) reducing or eliminating exploration expenditures which are of limited strategic value; and
- (iv) exploring alternate sources of liquidity.

In light of the above, the Company will continue to assess new properties and seek to acquire an interest in additional properties if it believes there is sufficient potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is appropriate.

There were no changes in the Company's approach to capital management during the three and nine months ended September 30, 2009. The Company is not subject to externally imposed capital requirements. The Company expects that its current capital resources will be sufficient to discharge its liabilities as at September 30, 2009.

4. PROPERTY AND FINANCIAL RISK FACTORS AFFECTING FINANCIAL INSTRUMENTS

(a) Property risk

The Company's mining interests are the only properties that are currently material to the Company. Unless the Company acquires or develops additional material properties, the Company will be solely dependent upon its current mining interests. If no additional mineral properties are acquired by the Company, any adverse development affecting the Company's mining interests would have a material adverse effect on Spider's financial condition and results of operations.

(b) Financial risk

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate, foreign exchange rate and commodity price risk).

Risk management is carried out by the Company's management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

Spider Resources Inc.
(A Development Stage Company)
Notes to Interim Financial Statements
(Unaudited)
Three and nine months ended September 30, 2009

4. FINANCIAL RISK FACTORS AFFECTING FINANCIAL INSTRUMENTS (continued)

(b) Financial risk (continued)

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to sundry receivables. The Company has no significant concentration of credit risk arising from operations. Financial instruments included in sundry receivables consist of sales tax receivable due from government authorities in Canada and deposits held with service providers. Sundry receivables are in good standing as of September 30, 2009. Management believes that the credit risk concentration with respect to financial instruments is minimal.

Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company's liquidity and operating results may be adversely affected if the Company's access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or related to matters specific to the Company. The Company generates cash flow primarily from its financing activities. As at September 30, 2009, the Company had a cash balance of \$3,238,880 (December 31, 2008 - \$3,205,855) to settle current liabilities of \$237,550 (December 31, 2008 - \$166,081). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. The Company regularly evaluates its cash position to ensure preservation and security of capital as well as maintenance of liquidity.

The Company is also committed to spending approximately \$1,761,000 associated with the first and second tranche of a private placement that was completed on July 24, 2009 and August 7, 2009 (Note 6(a)(ii)). The Company is in the process of complying with its flow-through contractual obligations with subscribers with respect to the requirements of the Income Tax Act (Canada). It is possible that the Company may institute the look-back rule which will require the Company to spend the funds by the end of 2010. If the Company does not spend these funds in compliance with the government of Canada flow-through regulations, it may be subject to litigation from various counterparties. The Company intends to fulfill all flow-through commitments within the given time constraints.

Market risk

(i) Interest rate risk

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the creditworthiness of its banks.

(ii) Foreign currency risk

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the entity's functional currency. The risk is measured using cash flow forecasting. The Company's functional and reporting currency is the Canadian dollar and major purchases are transacted in Canadian dollars. As a result, the Company's exposure to foreign currency risk is minimal.

(iii) Price risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company.

4. FINANCIAL RISK FACTORS AFFECTING FINANCIAL INSTRUMENTS (continued)

Sensitivity analysis

Sundry receivables which are classified for accounting purposes as loans and receivables, are measured at amortized cost. Accounts payable and accrued liabilities are classified for accounting purposes as other financial liabilities, which are measured at amortized cost. Due to the short-term nature of these instruments, their carrying value approximates fair value.

Fair value represents the amount that would be exchanged in an arm's length transaction between willing parties and is best evidenced by a quoted market price, if one exists.

Commodity price risk could adversely affect the Company. In particular, the Company's future profitability and viability depends upon the world market price of valuable minerals. Commodity prices have fluctuated significantly in recent years. There is no assurance that, even if commercial quantities of valuable minerals can be produced in the future, a profitable market will exist for them. As of September 30, 2009, the Company was not a producer of valuable minerals. As a result, commodity price risk may affect the completion of future equity transactions such as equity offerings and the exercise of stock options and warrants. This may also affect the Company's liquidity and its ability to meet its ongoing obligations.

5. MINING INTERESTS

Acquisition cost and deferred exploration expenditures	1,063,392	2,009,974
Balance at end of period	\$ 19,896,789	\$ 18,833,397

On a quarterly basis, management of the Company reviews mining interests to determine if exploration costs are eligible for capitalization. For a description of mining interests owned by the Company, refer to Note 6 of the audited financial statements of Spider as at December 31, 2008. Specific changes to mining interests that occurred from January 1, 2009 to September 30, 2009 are as follows:

5. MINING INTERESTS (continued)

(a) On September 14, 2009, Spider announced that it has amended and restated the December 2005 Option Agreement with respect to Freewest Resources Canada Inc.'s ("Freewest") McFauld's property located in Ontario. Each of Spider and KWG Resources Inc. ("KWG") has to date earned a 25% interest in the Big Daddy Chrome property, which is comprised of four 16 unit claims, one twelve unit claim and two additional one unit claims (1,248 hectare property), pursuant to an Option Agreement first entered into with Freewest in December 2005.

During the negotiations, the delivery of a Bankable Feasibility Study by the Optionees was removed as a requirement of the earn-in and consequently the Optionees (Spider and KWG) can only vest with 30% each once each fulfills the conditions of the new Option agreement.

Under the Amended Option Agreement, Freewest has granted additional options to KWG and Spider under which each can earn an additional 5% undivided interest (10% in the aggregate) in the McFauld's joint venture property by incurring an additional \$7.5 million in expenditures (\$15 million in the aggregate) by March 31, 2012. Each of KWG and Spider can acquire: (i) an additional 1.5% interest in the McFauld's joint venture property by incurring \$2.5 million in expenditures by March 31, 2010, which KWG and Spider have committed to spend; (ii) an additional 1.5% interest in the property by incurring an additional \$2.5 million in expenditures by March 31, 2011; and (iii) an additional 2% interest in the property by incurring an additional \$2.5 million in expenditures by March 31, 2012. If either KWG or Spider elects not to exercise any portion of its option under the Amended Option Agreement, the other has the right to exercise the option in its place.

Alternatively, if one or more of the optionees incurs at least \$5 million in expenditures and delivers a positive feasibility study to the two other parties on or before March 31, 2012, such optionee or optionees, as the case may be, will be deemed to have earned the aggregate 10% interest in the McFauld's joint venture property, notwithstanding that less than \$15 million of expenditures were incurred prior to that date. Any decision to undertake a positive feasibility study must be made by the operator of the McFauld's joint venture project, who must notify Freewest of any such decision on or before March 31, 2011.

The Amended Option Agreement further provides that Spider and KWG will alternate as operator of the McFauld's joint venture project for one-year terms, until March 31, 2012, with Spider acting as initial operator until March 31, 2010. The three parties will decide on the operator for the period after March 31, 2012 by way of majority vote.

The Amended Option Agreement also provides that upon the earlier of the termination of the option period, or Spider and KWG acquiring an aggregate 60% interest in the McFauld's joint venture property, a Joint Venture Agreement among the three parties will automatically enter into effect. The Joint Venture Agreement is a schedule to the Amended Option Agreement.

KWG and Spider have committed to undertake an exploration program on the Big Daddy Chrome Property under which an aggregate of at least \$5 million will be spent by March 31, 2010.

Cost of issue	-	(249,837)
Balance, September 30, 2009	389,545,100	\$ 31,635,580

(i) In connection with the issuance of flow-through shares under the private placements during the year of 2008, the Company renounced \$235,000 and \$60,000 of qualifying expenditures respectively to the shareholders in February 2009. The tax benefits forgone by the Company relating to these renunciations at the future tax rates amounted to \$68,150 and \$17,400, respectively.

(ii) On July 24, 2009, Spider completed the first tranche of a private placement of 48,333,333 flow-through units at a price of \$0.03 per unit, for gross proceeds of \$1,450,000. The private placement is part of a larger offering of up to 73,333,333 flow-through units (the "Offering"). Each unit consists of one common share (issued on a flow-through basis) and one-half of one common share purchase warrant. Each full warrant entitles the holder to acquire one common share (which share shall not be issued on a flow-through basis) at a price of \$0.05 for a period of one year from the date of issue and thereafter at a price of \$0.10 for a period of two years from the date of issue.

Spider engaged IBK Capital Corp. ("IBK") to complete the first tranche of the Offering on a best efforts agency basis. Spider paid an aggregate cash commission in the amount of \$102,375 to IBK and its selling group agents and issued 4,550,000 broker warrants ("Broker Warrants") entitling IBK and its selling group agents to purchase up to 4,550,000 common shares in the capital of Spider at a price of \$0.03 for a period of one year from the date of issue and thereafter at a price of \$0.06 for a period of two years from the date of issue. IBK engaged the following sub-agents in connection with the completion of the first tranche of the Offering: Brant Securities Limited, Octagon Capital Corp., CIBC Wood Gundy, TD Waterhouse Canada Inc., MGI Securities Inc., and Dundee Securities Corporation.

The securities issued under the private placement are subject to a hold period from the date of issuance until November 25, 2009 in accordance with applicable securities laws and TSX Venture Exchange policies.

The fair value of the 24,166,661 warrants issued in the first tranche of the private placement was estimated to be \$435,000 using the Black-Scholes valuation model with the following assumptions: a two year expected term, 156% volatility, risk-free interest rate of 1.36% per annum and a dividend rate of 0%.

The fair value of the 4,550,000 Broker Warrants was estimated to be \$91,000 using the Black-Scholes valuation model with the following assumptions: a two year expected term, 156% volatility, risk-free interest rate of 1.36% per annum and a dividend rate of 0%.

6. SHARE CAPITAL (continued)

(a) COMMON SHARES (continued)

(ii) (continued) On August 7, 2009, Spider completed the second tranche of a private placement with the MineralFields Group of 25,000,000 flow-through units at a price of \$0.03 per unit, for gross proceeds of \$750,000. Each unit consists of one common share (issued on a flow-through basis) and one-half of one common share purchase warrant. Each full warrant entitles the holder to acquire one common share (which share shall not be issued on a flow-through basis) at a price of \$0.05 for a period of one year from the date of issue and thereafter at a price of \$0.10 for a period of two years from the date of issue.

Spider engaged Limited Market Dealer Inc. to complete the second tranche of the Offering on a best efforts agency basis. Limited Market Dealer Inc. was paid an aggregate cash commission of \$37,500 and was issued 2,500,000 broker options ("Broker Options"). Each Broker Option is exercisable for one unit ("Option Unit") at a price of \$0.03 for a period of one year from the date of issue and thereafter at a price of \$0.06 for a period of two years from the date of issue. Each Option Unit consists of one common share and one-half of one non-transferable common share purchase warrant. Each full warrant will be exercisable for one common share at a price of \$0.05 for a period of one year from the date of issue and thereafter at a price of \$0.10 for a period of 24 months from the date of issue.

The securities issued under the private placement are subject to a hold period from the date of issuance until December 8, 2009 in accordance with applicable securities laws and TSX Venture Exchange policies.

The fair value of the 12,500,000 warrants issued in the second tranche of the private placement was estimated to be \$225,000 using the Black-Scholes valuation model with the following assumptions: a two year expected term, 155% volatility, risk-free interest rate of 1.36% per annum and a dividend rate of 0%.

The fair value of the 2,500,000 Broker Options was estimated to be \$72,500 using the Black-Scholes valuation model with the following assumptions: a two year expected term, 155% volatility, risk-free interest rate of 1.36% per annum and a dividend rate of 0%.

(b) STOCK OPTIONS

(b) STOCK OPTIONS (continued)

The following table reflects the actual stock options issued and outstanding as of September 30, 2009:

Expiry Date	Weighted Average Exercise Price (\$)	Outstanding and Exercisable Number of Options	Weighted Average Remaining Contractual Life (Years)
December 23, 2009	0.15	5,600,000	0.23
February 8, 2011	0.10	5,385,018	1.36
July 25, 2011	0.10	1,000,000	1.82
October 2, 2013	0.10	10,900,000	4.01
April 21, 2014	0.10	7,100,000	4.56
	0.11	29,985,018	2.88

(i) On April 21, 2009, the Company granted 7,100,000 options to directors, officers and consultants of Spider exercisable over a five-year period at a price of \$.10 per share. The fair value of these options at the date of the grant was estimated using the Black-Scholes valuation model with the following assumptions: a five year expected term, 127% volatility, risk-free interest rate of 1.87% per annum; and a dividend rate of 0%. The fair value assigned to these options was \$220,100 which was expensed to the statement of operations with the corresponding amount allocated to contributed surplus as all options vested when granted.

July 28, 2011	4,550,000	0.03 - 0.06	91,000
August 7, 2011 (ii)	2,500,000	0.03 - 0.06	72,500
	83,819,994		\$ 3,374,547

(i) Spider made an application to the TSX Venture Exchange (the "Exchange") to amend certain terms of 30,666,666 warrants, which were issued by Spider on October 11, 2007 as part of a brokered private placement of flow-through and non flow-through units of Spider. Each warrant was exercisable at a price of \$0.175 per share until October 11, 2009.

The Exchange on October 9, 2009 agreed that Spider could amend the terms of the warrants as follows: (i) extend the term of the warrants by one year until October 11, 2010, and (ii) reduce the exercise price of the warrants from \$0.175 per share to \$0.10 per share (collectively, the "Warrant Amendment").

The fair value of the Warrant Amendment of \$674,667 was estimated using the Black-Scholes valuation model with the following assumptions: 172% volatility, risk-free interest rate of 1.56% per annum and a dividend rate of 0%. This amount was added to the previously calculated Black-Scholes value of \$1,594,667 for a combined total of \$2,269,334.
